

MEADE®

NG70-SM Telescope

70mm Altazimuth Refractor

The world's top astronomers got started with a telescope just like this one — and so will you. A quality refracting telescope for land or sky viewing. Perfect for observing Saturn, Jupiter, the Moon and land objects.

A first look at the rings of Saturn or the craters of the Moon can inspire a lifetime of exploration. Go to any star party anywhere in the world and you'll see more Meade telescopes than any other.

Comes with AutoStar Suite™ Astronomer Edition Software on DVD

AutoStar Suite Astronomer Edition software will help you learn the night sky. It displays more than 10,000 celestial objects including planets, stars, galaxies and nebulas. You can print out star charts and even plan your observing sessions. It operates on any Windows®-based PC.

Also includes Instructional Videos. You'll be up and running in no time. The universe is waiting.

FEATURES

- **Slow Motion Controls on Both Axes**
Find and track objects easily with precision controls
- **Includes Red Dot Projection Viewfinder**
For easy acquisition of guide stars while star-hopping for celestial targets
- **Heavy-Duty Steel Tube Tripod**
Provides a rock solid platform for viewing

SPECIFICATIONS

Model / Part Number	NG70-SM / 20218
Optical Design	Refractor
Optical Diameter	70mm (2.8")
Focal length, f/ratio	700mm; f/10
Mounting Type	Altazimuth with slow motion controls
Viewfinder	Red Dot
Tripod	Steel; full-length; adjustable with accessory tray
Eyepieces (1.25")	MH9mm, MH25mm
Diagonal Mirror	Included
Software	AutoStar Suite™ Astronomer Edition, PC-compatible DVD
UPC	7 09942 21495 6

Red Dot Projection Viewfinder

Meade® Premium Optics

Serious astronomers for years have flocked to Meade telescopes for their premium quality optical systems and patented technology. Consumers know that "Meade Optics Inside" means that what they see through our telescopes will be views that are detailed, crisp and full of contrast. Look through a Meade this evening and see what you've been missing.

More Power Than You'll Ever Need

Any astronomer will tell you that light gathering — not power — is what matters. A small, crisp image is better than a large hazy one. Meade's 1.25" diameter eye-pieces provide wider fields of view, allowing you to see more of the sky at greater magnifications. Additional eyepieces and other accessories for this telescope are available at www.meade.com/accessories
